Rahane Ka Sthan} = Pigeonholes Their weight is from 2 to 4 kg. A black ring made around the neck of a dove. Pigeon Lifestylepigeon prefers to live among humans from years ago. And more...
they can live their lives freely. Our apps are nice too! Dictionary. It can also survive in icy and desert areas. Pigeons always like to live in herds. Pigeons rarely disturb other birds or people, preferring a calm environment. They have very short hair on their body, which helps them control their body temperature. The scientific name of the pigeon is Columba Livia Domestica. Pigeons are very calm. In India, there are only white and gray pigeons. Those smaller are usually called doves, those larger are called pigeons. They eat cereals, millet grains, fruits, etc. Pigeons are very calm and love to live together with humans. humans.
